I have received or I have been provided the opportunity to receive a copy of the "Notice of Privacy Practices" that explains when, where, and why my confidential health information may be used or shared. I acknowledge that Cornerstone Counseling of Bellevue, LLC, the counselors, and other Cornerstone staff may use and share my confidential health information with others to treat me, in order to arrange payment of my bill, and for issues that concern Cornerstone operations and responsibilities.

INSURANCE SIGNATURE REQUIREMENT

By signing below, I hereby authorize payment of medical benefits to Cornerstone Counseling of Bellevue, LLC, for services rendered and authorize Cornerstone Counseling of Bellevue, LLC, to release information acquired in the course of my treatment to my insurance company.

I certify the information on this form is true and correct to the best of my knowledge and will notify Cornerstone of any changes in my status regarding the above information.

CORNERSTONE COUNSELING OF BELLEVUE, LLC

FINANCIAL ARRANGEMENTS & MENTAL HEALTH SERVICES POLICY

We are committed to providing you with the best possible care and keeping associated cost(s) manageable. Therefore, payment in full is due at the time service is provided unless other financial arrangements are made with our office, in advance.

Insurance:

If you have medical insurance, we would like to help you receive your maximum allowable benefits; therefore we ask that you provide your insurance information to the front office staff at your first appointment and when there are any changes in your insurance coverage. Additionally, we require that each patient pay their deductible, copay, and/or coinsurance payment before each visit. Failure to provide your insurance information may result in our inability to submit your claim(s). Accepting and/or pre-certifying your insurance does not place any financial responsibilities on this practice. **You will ultimately be responsible for any and all unpaid balance(s).**

Our services may not be covered by your insurance provider but our rates do not change per session. It is the insurance company that brings about changes to your policy and/or coverage. The most accurate information about payment per session is available only after you receive your first Explanation of Benefits (EOB) from your insurance company, which can take up to 4-6 weeks.

Being referred to our practice by another physician does not necessarily guarantee that your insurance(s) will cover our services. Please remember that you are fully responsible for all charges incurred; your physician's referral and our verification of your insurance benefits are not a guarantee of payment or a transfer of liability. **Please do not assume that you will not owe a balance if you have insurance or coverage from more than one insurance carrier.**

Billing: EFFECTIVE 1/1/2021

The hourly rate for the requested services is \$110/hour and \$130 for the diagnostic session. You will be billed for any outstanding balance(s) at the conclusion of your visit(s) with us that may not be covered by applicable insurance(s), etc. **Immediate payment in full is expected and appreciated.** We realize that you may have special arrangements with a non-custodial parent or other party for payment of medical bills; however we do not get involved in domestic issues with third parties.

Any account may be placed with a collection agency. If your account is placed with a collection agency and legal action is initiated, you will be responsible for any amount due including but not limited to interest, fees, charges and/or expenses incidental to the principal obligation prior to a judgment being rendered against you. **A finance charge of 1.5% per month will be assessed on all outstanding balances over 30 days past due.**

Patient Relationship:

The initial three sessions are for the purpose of evaluation (e.g. to determine whether or not a treatment relationship will be established) and as such do not guarantee acceptance as a Cornerstone client. While you likely expect to benefit from this treatment, understand that outcomes cannot be guaranteed. Your therapist is under no obligation to treat you. If there is a credit due you, it may be applied to any future appointments or will be refunded to you at the close of your case.

CANCELLATION POLICY

Because the demand for counseling is so great, we take very seriously our responsibility to be good stewards of our time and resources. **We ask that you give us at least a 24 hour notice of your intention to cancel any counseling appointment. Failure to show without notice OR same day cancellations will result in the client being billed \$55 for the first incident and \$110 for each additional incident.** We maintain a secure 24-hour answering machine for appointment cancellations. Please leave a reason for your cancellation when leaving a voicemail. We reserve the right to cancel any and all future appointments if you have an account balance of more than \$110.

By signing below I acknowledge that I have read the Financial Arrangements & Mental Health Services Policy and the Cancellation Policy, in their entirety and I fully understand their content(s). I also understand that I am ultimately responsible for any and all charges resulting from services rendered.

Email Informed Consent Form

Introduction

Cornerstone Counseling provides patients the opportunity to communicate with Cornerstone Counseling and its employees or agents by email. Transmitting confidential patient information by email, however, has a number of risks, both general and specific, that patients should consider before using email.

Risk Factors

- Among general email risks are the following:
 - Email can be immediately broadcast worldwide and be received by many intended and unintended recipients.
 - Recipients can forward email messages to other recipients without the original sender's permission or knowledge.
 - Users can easily misaddress an email.
 - Email is easier to falsify than handwritten or signed documents.
 - Backup copies of email may exist even after the sender or the recipient has deleted his or her copy.

- Among specific patient email risks are the following:
 - Email containing information pertaining to a patient's diagnosis and/or treatment may be included in the patient's medical or financial records. Thus, all individuals who have access to the medical record or financial record will have access to the email messages.
 - Employees do not have an expectation of privacy in email that they send or receive at their place of employment. Thus, patients who send or receive email from their place of employment risk having their employer read their email.
 - If employers or others, such as insurance companies, read an employee's email and learn of medical treatment, particularly mental health, sexually transmitted diseases, or alcohol and drug abuse information, they may discriminate against the employee/patient. For example, they may fire the employee, not promote the employee, deny insurance coverage, and the like. In addition, the employee could suffer social stigma from the disclosure of such information.
 - Patients have no way of anticipating how soon Cornerstone Counseling and its employees and agents will respond to a particular email message. Although Cornerstone Counseling and its employees and agents will endeavor to read and respond to email promptly, Cornerstone Counseling cannot guarantee that any particular email message will be read and responded to within any particular period of time. Cornerstone Counseling's employees and agents may be traveling, be engaged in other duties, or be on a vacation or

a break and therefore be unable to continually monitor whether they have received email. Thus, patients should not use email in a medical or other emergency.

Conditions for the Use of Email

- It is the policy of Cornerstone Counseling to make all email messages sent or received that concern the protected health information (“PHI”), defined as individually identifiable health information that includes medical, financial, demographic, and lifestyle information, part of that patient’s medical, financial, or other records, and Cornerstone Counseling will treat such email messages with the same degree of confidentiality as afforded other portions of the medical record. Cornerstone Counseling will use reasonable means to protect the security and confidentiality of email information. Because of the risks outlined above, Cornerstone Counseling cannot, however, guarantee the security and confidentiality of email communications.
- Thus, patients must consent to the use of email for confidential medical information after having been informed of the above risks. Consent to the use of email includes agreement with the following conditions:
 - All emails to or from the patient concerning diagnosis and/or treatment will be made a part of the patient’s records. As a part of medical record or other records, other individuals, such as other physicians, nurses, physical therapists, patient accounts personnel, and the like, and other entities, such as other health care providers and insurers, may have access to email messages contained in medical records.
 - Cornerstone Counseling may forward email messages within the facility as necessary for diagnosis, treatment, and reimbursement. Cornerstone Counseling will not, however, forward the email outside the facility without the consent of the patient or as required by law.
 - If the patient sends an email to Cornerstone Counseling one of its employees or agents will endeavor to read the email promptly and to respond promptly, if warranted. Cornerstone Counseling, however, can provide no assurance that the recipient of a particular email will read the email message promptly. **Because Cornerstone Counseling cannot assure patients that recipients will read email messages promptly, patients must not use email in a medical or other emergency.**
 - If a patient’s email requires or invites a response, and the recipient does not respond within a reasonable time, the patient is responsible for following up to determine whether the intended recipient has received the email and when the recipient will respond.
 - Because some medical information is so sensitive that unauthorized disclosure can be very damaging, **patients should not use email for communications concerning diagnosis or treatment of the following: AIDS/HIV infection; other sexually transmissible or communicable diseases, such as syphilis, gonorrhea, herpes, and the like; mental health or developmental disability; or alcohol and drug abuse.**

- Because employees do not have a right of privacy in their employer's email system, patients should not use their employer's email system to transmit or receive confidential medical information.
- Cornerstone Counseling cannot guarantee that electronic communications will be private. Cornerstone Counseling will take reasonable steps to protect the confidentiality of patient email, but Cornerstone Counseling is not liable for improper disclosure of confidential information not caused by Cornerstone Counseling's gross negligence or wanton misconduct.
- If the patient consents to the use of email, the patient is responsible for informing Cornerstone Counseling of any types of information that the patient does not want to be sent by email other than those set out above.
- Patient is responsible for protecting patient's password or other means of access to email sent or received from Cornerstone Counseling to protect confidentiality. Cornerstone Counseling is not liable for breaches of confidentiality caused by patient.
- **Any further use of email by the patient that discusses diagnosis or treatment by the patient constitutes informed consent to the foregoing.** You may withdraw consent to the future use of email at any time by email or written communication to Cornerstone Counseling attention: Staci Ringle

EMAIL INFORMED CONSENT SIGNATURE PAGE

I have read the above risk factors and conditions for the use of email, and I hereby consent to the use of email for communications to and from Cornerstone Counseling regarding my medical treatment.
